

THE GOOD SAMARITAN.

THE CONTRAST.—All states, from the remotest ages, have had ships, but Columbus only found out the way to America. Before the time of the great Spanish navigator, people were only enabled to public about a shore. Just as with the Life Medicines. It is but a short time since I first ventured upon an unknown sea, and I have discovered the precious object I was search of—HEALTH. Vegetable medicines were then known when I commenced my search, but their use was not. By the use of them, I have not only passed the dejected world, to the hale, hearty and active man of business, but, comparatively speaking, I have renewed my youth. I can show, with confidence, in my own experience, advice with my fellow citizens. Does the reader want proof that the Vegetable Life Medicines are suitable to his own case? I have on file at my office, 546 Broadway, hundreds of letters, from some of the most respectable citizens of this my native land, volubly offered in testimony of the virtues of a good Vegetable Medicine.

Persons whose constitutions have been nearly ruined by the "all infallible" mineral preparations of the day, will bear me witness, that the Life Medicines, and such only, are the true course to permanent good health.

JOHN MORFAT.

GENERAL REMARKS RELATIVE TO MORFAT'S LIFE PILLS AND PHENIX BITTERS.

These medicines have long been known and appreciated for their extraordinary and immediate powers of restoring perfect health, to persons suffering under nearly every kind of disease to which the human frame is liable.

In many hundreds of certified instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and ending with renewed tone and vigor, that they were indebted for their name, which was bestowed upon them at the spontaneous request of several individuals whose lives they had obviously saved.

The proprietor rejoices in the opportunity afforded by the universal diffusion of the daily press, for placing his Vegetable Life Pills within the knowledge and reach of every individual in the community. Unlike the host of pernicious quackeries, which boast of vegetable ingredients, the Life Pills are purely and solely vegetable, and contain neither Mercury, Antimony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them; and to remove the hardened feces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind, as to produce habitual constiveness, with all its train of evils, or sudden diarrhoea with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the quick medicines of the age. The second effect of the quick medicines of the age, is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases, to which the Vegetable Life Pills are well known to be infallible:—

Dyspepsia, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acid kind—Flatulency, palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Anxiety, Langor, and Malcholy, which are the general symptoms of dyspepsia, will vanish, as a natural consequence of its cure. Constiveness by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels entire within two days. Diarrhoea and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucus membrane. Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in some cases, and the thorough solution of all intestinal obstructions in others. The Life Pills have been known to cure Rheumatism permanently in three weeks, and Gout in half that time, by removing local inflammation from the muscles and ligaments of the joints. Dropsies of all kinds, by lessening and strengthening the kidneys and bladder; they operate to most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of Gravel. Also, Worms, by dissolving from the turnings of the bowels the slimy matter to which these creatures adhere; Asthma and Consumption, by relieving the air vessels of the lungs from the mucus, which even slight colds will occasion, which if not removed becomes hardened, and produces those dreadful diseases. Scoury, Ulcers, and Incurable Sores by the perfect purity which these Life Pills give to the blood, and all the humors; Scarcities Eruptions, and Bad Complexions, by their alternative effect upon the fluids that feed the skin, the morbid state of which occasions all Eruptive complaints, Sallow, Cloudy, and other disagreeable Complexions. The use of these Pills for a very short time, will effect an entire cure of Salt Rheum, Erysipelas, and a striking improvement in the Clearness of the skin. Common Colds and Influenza, will always be cured by one dose, or by two, even in the worst cases. Fever, as a remedy for the most distressing and obstinate malady, the Vegetable Life Pills deserve a distinct and emphatic recommendation. It is well known that the Proprietor of these invaluable Pills, was himself afflicted with this complaint for upwards of thirty-five years, and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however, at length tried the medicine which he now offers to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible by any human means.

DIRECTIONS FOR USE.—The Proprietor of the Vegetable Life Pills does not follow the base and mercenary practice of the quack of the day, in advising persons to take his Pills in large quantities. No good medicine can possibly be so required. These Pills are to be taken at bed time every night for a week or fortnight, according to the obliquity of the disease. The usual dose is from 2 to 5, according to the constitution of the person. Very delicate persons should begin with but two, and increase as the nature of the case may require; those more robust, or of very constitutive habit, may begin with 3, and increase to 4 or even 5, and they will effect a sufficiently happy change to guide the patient in their further use. These Pills sometimes occasion sickness and vomiting, though very seldom, unless the stomach is very full; this however may be considered a very favorable symptom, as the patient will find himself at once relieved, and by perseverance will soon recover. They usually operate within 10 or 12 hours, and never give pain unless the bowels are very much encumbered. They may be taken by the most delicate females under any circumstances—it is however, recommended, that those in late periods of pregnancy should take but one at a time, and this only to keep the bowels open; and even two, should be taken where the patient is very constipated. One pill in a glass of water, or two table spoons full of water, may be given to an infant in the following doses—a tea spoon full of water, three pills till it operates; for a child from one to two years, half a pill—and from five to ten one

THE PHENIX BITTERS, are so called, because they possess the power of restoring the expiring elements of health, to a glowing vigor throughout the constitution, as the Phoenix is said to be restored to life from the ashes of its own dissolution. The Phoenix Bitters are entirely vegetable, composed of roots found only in certain parts of the western country, which will infallibly cure FEVERS & AGUES of all kinds; will never fail to eradicate entirely all the effects of Mercury, infinitely sooner than the most powerful preparations of nuxvomaria, and will immediately cure the determination of BLOOD to the HEAD; never fail to be found a certain remedy in all cases of nervous debility and weakness of the most impatient constitutions. As a remedy for Chronic and Inflammatory Rheumatism, the efficacy of the Phoenix Bitters will be demonstrated by the use of a single bottle. The usual dose of these bitters is half a wine glass full, in water or wine, and this quantity may be taken two or three times a day, about half an hour before meals, or a less quantity may be taken at all times. To those who are afflicted with indigestion after meals, these Bitters will prove invaluable, as they greatly increase the action of the principal viscera, help them to perform their functions, and enable the stomach to discharge into the bowels whatever is offensive.—Thus indigestion is easily and speedily removed, appetite restored, and the mouth of the absorbent vessels being cleansed nutrition is facilitated, and strength of body and energy of mind are the happy results. For further particulars of MORFAT'S LIFE PILLS, and PHENIX BITTERS, apply at Mr. Morfat's office, No. 546 Broadway, New York, where the Pills can be obtained for 25 cents, 50 cents, or \$1 per box; and the Bitters for \$1 or \$2 per bottle. Numerous certificates of the wonderful efficacy of both may be there inspected.

In some obstinate and complicated cases of chronic and inflammatory Rheumatism, Liver Complaints, Fever and Ague, Dyspepsia, Palsy, Piles, injuries from the use of Mercury, quinine, and other diseases of long standing, it may be found necessary to take both the Life Pills and the Phoenix Bitters, in the doses before recommended.

N. B.—These Pills, and the Bitters will get all mercury out of the system infinitely faster than the best preparations of nuxvomaria, and are a certain remedy for the raking of blood to the head, or all violent headaches, dizziness, &c.—All persons who are predisposed to apoplexy, palsy, &c., should never be without the Life Pills or Bitters, for one dose in time will save life. They equalize the circulation of the blood, draw all pressure from the head, restore perspiration, and throw off every impurity by the pores of the skin.

"The art of Healing had its origin in the woods and the forest, and still the best Medical School."

THE INDIAN PURGATIVE PILLS; OR, UNIVERSAL MEDICINE OF THE NORTH AMERICAN COLLEGE OF HEALTH, Established at Washington, D. C. Jan. 8, 1838.

ADDRESS TO THE AMERICAN PEOPLE.

Fellow Citizens: At a time like the present, when our country is literally flooded with nostrums brought from foreign climes, you may perhaps think it an act of temerity in us to offer, as a candidate for your patronage and favor, a Medicine which is strictly AMERICAN.—Common sense, however, teaches us, that those herbs which spring spontaneously from our native soil, must be better adapted to our constitutions than foreign medicines however useful the latter may have been in the countries to which they belong. The climate of the United States stands unrivalled for the production of medicinal plants, and a very little investigation will suffice to convince the most skeptical that our own country is able to supply all our wants, independent of foreign assistance.

Deeply impressed with the importance of the above facts, we venture to recommend the INDIAN PURGATIVE to the patronage of our fellow citizens in every section of the Union, as a natural remedy, applicable to our constitutions, and competent to cure every curable disease.

In bringing a medicine before the public for the first time, it is generally thought necessary to impress the people with an idea of the difficulties encountered in its discovery, or the antiquity of its origin; thus one tells us that his medicine is "a newly discovered chemical compound the result of many years intense study and scientific research," and another ascribes the honor to "somebody's Grandfather, &c." Now as the success of a medicine must depend on its intrinsic merits, and not on the time or manner in which it was discovered, we cannot see the use of falsifying for the purpose of investing its origin with a fictitious antiquity. Such auxiliaries are not needed on the present occasion, as a single dose of the Indian Purgative will suffice to convince every invalid (and to such only we look for an impartial verdict) that its curative effects are immeasurably superior to those of any other medicine now in use. Proud of this superiority we scorn fictitious aid, but give it to the world for what it is—SIMPLY a compound of FOUR SIMPLE HERBS, used for the cure of disease, by the COPPER COLORED WARRIORS OF THE WEST. One of the herbs is an expectorant, one a sudorific, one a diuretic, and one a cathartic. The proper combination of the above forms an antispasmodic and deobstruent medicine, of such EFFICACY and POWER as has hitherto been unknown in the art of healing. Its mode of curing is first to neutralize all putrefactive matter in the body; second, to cause the expulsion of the same through the proper outlets, provided by nature for that purpose; consequently its action is not confined to the bowels, although it is greatest there, but extends to the nostrils, throat, salivary glands, lungs, skin and kidneys.

Each of the above drains is intended by nature for the discharge of an excretion peculiar to itself, and although we may for a time compel the constitution to evacuate the whole through one drain, such treatment cannot fail to derange the mechanism of the body, and ultimately ruin the health of the patient. It is true that all diseases arise from impurities of the blood, but it is also true that nature has provided many channels for the discharge of these impurities; therefore we are not likely to benefit the patient by tramping on the laws of nature, in bringing all the different kinds of excretory matter through one channel; hence the evil of attempting to cure all diseases by a course of sweating, or vomiting, or purging, or any other method which opens only one class of excretory.

No disease ever was or ever will be cured unless by medicines which produce the effects above mentioned. Every system of practice is more or less perfect, in proportion to its power of acting on the different excretories; and the Indian system claims pre-eminence only because it possesses the power of opening, and keeping open all the natural drains.

The inestimable value of a medicine which will act on all the excretories, at one and the same time, is more apparent when we reflect that the human body is a complicated machine, consisting of numberless different and distinct members, all of which are so intimately connected, and mutually dependent, that no one part can be injured without producing a corresponding degree of injury on every other part; therefore one part of the body cannot be diseased, and another part healthy; neither can one part be cured while another part remains diseased. Disease begins in the blood, and as the blood flows to every part of the system, every part of the system must become more or less diseased; no disease is cured unless the cause is removed, and to remove the cause we must restore the blood to a healthy state, and if the blood is made healthy, every part of the body must be the same.

We have now illustrated the natural or Indian system of practice, and the more it is investigated the more reasonable it appears; as regards its truth, we have only to reflect that it was taught by nature and therefore must be true. When the body stands in need of nourishment, we are impelled by hunger to eat; and when it is diseased, we are impelled by instinct to use medicine; and there cannot be a doubt that if we lived in a state of nature, this instinctive feeling would always direct us to the proper medicine; hence the superiority of the Indian System. The art of healing was first learned in the woods, and to this day the untutored sav-

age is the best medical teacher; for the Indian practice is the only one which is consonant to those eternal and immutable laws which govern the animal economy.

Having already proved that the Indian Purgative acts in direct accordance with the laws of nature, and is therefore equal to the cure of every curable disease, we will now enumerate a few of the complaints for which it has been tried, and found a certain cure among the Indians, and white settlers of the Far West. These are—

FEVERS, Intermittent, Remittent, Nervous, Inflamations and Putrid Fevers; MEASLES; ERYSIPELS; SMALL POX, INFLAMMATIONS OF THE BRAIN, Throat, Stomach, Liver, Lungs, Intestines, Kidney, and the Bladder; RHEUMATISM, Acute and Chronic; SPITTING AND VOMITING OF BLOOD; DIARRHOEA, DYSENTARY AND CHOLIC; SYNCOPAL, APPOXY AND PARALYSIS; DYSPPEPSIA AND HYPOCHONDRIASIS; TETANUS EPILEPSY, WHOOPING COUGH, and PALPITATION OF THE HEART; INSIPID CONSUMPTION and Marasmus; DROPSY OF THE HEAD, CHEST, ABDOMEN, and LIMBS; SCROFULA, Scoury, and Scaphoid; CANCER; GRAVEL, LOSS OF APPETITE, COSTIVENESS; SICK HEADACHE; PAINS in the Back, Stomach and Side; ULCERS AND SORES of every description; HYSTERICS; WEAK NERVES; LOWNESS OF SPIRITS; Also, LENCORRHOEA; MONORRHOEA SUPPRESSION, and all other delicate Female Complaints.

Besides the above, it has been found invaluable in the diseases of infants, so that in the new settlements of the Far West, where the inhabitants keep it constantly beside them, the children are brought up in good health, without any assistance from Medical Men. To sum up the character of the Indian Purgative in a few words it is necessary to state that it possesses every curative property which can be possessed by Medicine, viz: the power of opening and keeping open all the natural drains of the body; and that a perseverance in its use, is all that is necessary in order to assist nature in the cure of every "disease to which flesh is heir to." THE THOUSANDS OF CURES that have already been effected in Philadelphia and Baltimore and other places will warrant the belief that when this medicine shall become generally known, disease of every kind will be driven from our land.

Brandege's Pills.

BEWARE OF COUNTERFEITS!!! ALL PILLS sold in the State of Vermont must pass through our hands, as Dr. Brandege's General Agent. There will be no more Pills sold at the Boston office or by B. B. Mussey, (who is no longer Dr. Brandege's agent) to be retained in this section of the country.

All Pills purporting to be Dr. Brandege's and sold by persons without a certificate of agency, signed by Dr. Brandege and by us as Counterfeit. To prevent all imposture from the circulation of the counterfeits, just let the purchaser ask the vendor for his certificate of agency, signed by Ferre & Parmelee. Never purchase of pedlars, for in no instance do they have the genuine article. Should any of our agents be caught in the counterfeit trade, they will be displaced. The Pills must be kept pure, and the counterfeits must be dealt with according to law. No mistake.

The following persons are agents in their respective towns for the sale of the genuine Brandege's Pills.

FERRE & PARMELEE, Middlebury, Conn. GEO. P. WALTON, General Agent, Montpelier, Vt. The following are Ferre & Parmelee's Agents: Geo. P. JEWETTS Celebrated Chemical Remedies.

Consisting of the following Preparations, &c.: STIMULATING LINIMENT, for pains in the side, back, or stomach, ague in the face, swollen or sore throat, numb palsy, paralysis, or loss of action in the limbs, &c.

Nerve Liniment—this article comprises the most valuable medicinal agents, for quieting, composing, and restoring the nerves to a healthy action, and its success has been very great in cases of long standing nervous irritations, convulsive fits, hysteria, epilepsy, St. Vitus Dance.

Liniment for cholera morbus—a valuable remedy for cholera morbus, cholera infantum, diarrhoea, cholera, and all bowel complaints.

Liniment for coughs and consumptions, has proved for the disease for which it is adapted, a most valuable remedy.

Rheumatic Liniment, for inflammatory rheumatism, sciatic affection, common rheumatism, local pains, and affections of the joint.

Headache Liniment—is competent to relieve the most painful cases of headache with a single application and in a short time effect an entire cure of long standing cases.

Vegetable Cerate, for white swellings, fresh wounds, burns, scalds, &c.

Tetter Salve, for tetter, ring worms, salt rheum, &c. Diaphoretic Drops for promoting perspiration.

Pectoral Tincture, a valuable expectorant, and highly useful in removing diseases of the lungs.

Alterative Drops, a valuable medicine for liver complaints, they are also a great purifier of the blood.

Although these articles have been but a short time in use, they have displayed a power and certainty in relieving the various maladies to which they have been applied, that is truly astonishing. Nevertheless, the most ample and respectable testimony, establishing their superior efficacy and success, are in possession of the subscriber. For sale by Daniels & Bell, Rutland; Lapham & Vail, Wallingford. 47 On

COUGHS, COLDS AND CONSUMPTION. N. H. DOWN'S Vegetable Balsamic Elixir.

One of the most certain and sure remedies, for coughs, colds, consumptions, whooping cough, asthma, catarrh, croup, and all diseases of the lungs, which have ever been offered to the public.

This Elixir, unlike any of the cough remedies, is the result of long experience by the proprietor in his own case, who, in the year 1827, was given over by his friends and physicians as in a confirmed consumption (with bleeding at the lungs) by which disease the year previous, he had lost two brothers. Since that time it has been administered to thousands with unparalleled success, as may be seen by reference to the few certificates subjoined to the pamphlet attached to each bottle, and may be had of agents without charge.

It does not operate as most cough medicines do, relieving the patient for a few days, after which they loathe it, leaving the cough more tight than before, but on the contrary does not stop the cough instantly, but enables the patient to throw off the cough phlegm without irritating the lungs, while nature and the healing qualities of the elixir, by removing all morbid irritations and inflammation from the lungs to the surface, and finally expels it by perspiration, and otherwise will effect a cure, and the patient during the mean time will become attached to it, by which means and perseverance, many valuable lives have been saved.

A few certificates are added to convince the most incredulous of the superiority of this medicine over any other in use, while it is recommended to those suffering to "read, try, judge," and "speak as they find."

Messrs Curtis & Russell—I cannot forbear to inform you of the result upon one of my children from the use of "N. H. Down's Vegetable Balsamic Elixir." Some time last winter I was on a visit to my father-in-law in Jersey, with my wife and children, when there, the youngest son took a violent cold, which resulted in an affection upon the lungs, which bid fair to terminate his life in a short time. The advice of a regular physician, and others, having been obtained, which appeared of no service to the little sufferer, as the last resort I could think of, I was induced to ride twenty miles and obtained a bottle of the Elixir. Upon my return I went immediately to administering it, and in a short hour the child began to breathe more freely. I still persevered until evening, when it was apparently recovering fast. And although a few hours before the child was supposed to be past all recovery, it was but three days before we were enabled to return home with the child, which soon regained its usual health, and has since remained so.

You will therefore, consider that I can but discharge a debt of gratitude in informing you of the particulars, the whole of which I ascribe to the virtue of the medicine. HIRSH C. BRUSH. St Albans, June 15, 1837.

St Albans, June 15, 1837. This may certify that my wife Mary Green, had been dead in one or two years, occasioned by the measles, for which she in early life used many remedies in vain. But being of a consumptive habit, was induced to take a bottle of "Rev. N. H. Down's Vegetable Balsamic Elixir," and to her astonishment, before using one bottle, her hearing was restored entirely, expressing herself thankful that she is able to converse freely with her family and friends. And although much wasted with a severe cough, she has, by taking three bottles, been so far restored as to be able to attend to her domestic duties. JOB GREEN. St Albans, July 12, 1836.

This may certify that for eighteen months, previous to the spring of 1837, I was troubled with a severe cough, which threatened to terminate in a consumption, and I was so weak that I was obliged to give up all business, at which time I concluded, with some reluctance, to try the effect of the then new medicine, N. H. Down's Balsamic Elixir, when to my surprise, and that of my family, I began, rapidly to recover, and in a few weeks was able to resume my business. But this was not all. For a great number of years I had been partially deaf, caused by a cold, and our acquaintance was still increased to find that my hearing has been entirely restored which I attribute entirely to the use of the elixir, and have since enjoyed good health. NATHANIEL PIERCE. Lewiston, Vt., July 1836.

DR. COOKE

The undersigned respectfully informs that the Albany Lock Hospital, established and modeled after the most celebrated European Lock Hospitals, has many years since been founded at Hook Quarters, No. 3 Norton street, Albany, N. Y. To those unacquainted with this institution, it is necessary to mention that it has for its object the cure of all such diseases as syphilis, scrofula, stricture, diseases of the urethra, lumbago, flou albus impotency, nodes of the womb, luminal weakness of both sexes, nodules, warts of the bones, gonorrhoea, gleet, with all venereal complaints in general, &c.

Persons, ignorant of the nature of disease, are not aware that many stages mark its progress from its commencement to its full development, originating in a most simple form, and through neglect or injudicious treatment, assumes a more aggravated state of disease, and occasions abscess, ulceration, pseudo syphilis, cancer, premature old age, too often ending in a protracted incurable state of existence. This institution is under the superintendence and management of Professor Cooke, M.D., D.D., L.L.D. of the city of Albany, N. Y., who will give his personal attendance at the Dispensary, attached to the institution, at all hours, to inquire into the professional services. He having had much more experience in this branch of medical practice than usually falls to the lot of any one member of the profession, therefore feels such confidence of his ability to give universal satisfaction that he assures all applicants upon need despair of a complete recovery. The unfortunate therefore, who have suffered from the want of success by these long experience, are invited to visit the Hospital, which only requires to be known to be sure of support, where the most perfect recovery may be depended on, and the utmost privacy will attend those who call. The whole house is exclusively appropriated to the use of patients, who will always be received in separate apartments, and at no time, unless at the request of the patient, will a third party be present. Professor Cooke has a number of handsomely furnished private chambers at No. 33, Greene st., where he will receive gentlemen who may require medical aid, enabled to reside on the premises, he will thereby be enabled to devote more than ordinary attention to his patients. Gentlemen will find it both convenient, as well as economical, in all cases of disease, to retire to these furnished rooms. As long as Professor Cooke desires to benefit the public, it is proper he should continue his advertisement, for the good of strangers, as it is well known that people are extremely shy in speaking of cases of a delicate nature, even when a physician is pre-eminently successful.

Communications, post-paid to the address of Professor Cooke, M. D., D. D., L. L. D. Albany, N. Y., enclosing a bank note as counseling fee, will have attention—

(none other will be received)—as a personal consultation may be had at all times, as usual, at the Dispensary, which is properly fitted and arranged with separate offices for confidential interviews.

For Counseling fees and charges reasonable.

Offices, No. 3 Norton st.—House, No. 33 Green street.

The reputation of which has now become established as the most safe and efficacious remedy ever discovered for INFLUENZA, COUGHS, COLDS, ASTHMA, WHOOPING COUGH, SPITTING OF BLOOD, &c. ALL AFFECTIONS OF THE LUNGS.

Prepared only by the sole Proprietors, GODDARD & BUTLER, No. 812, Gold Street, New York.

In presenting this useful remedy to the public, the proprietor is authorized by a physician, from whom the recipe and confidence of the elixir is derived, that he has used it himself, and in his extensive practice in Pulmonary affections, with astonishing effect. The happy combination of vegetable substances, of which it is entirely composed, are peculiarly adapted to diseases of the Lungs, Liver, and Stomach.

This medicine has been used very extensively, and the proprietor has not known a single instance in which it has failed in giving relief in diseases for which it is recommended, even in cases approaching to consumption, attended with bleeding at the lungs, and where all other remedies had failed, the most decided and flattering success has attended its use. Common colds, which are generally the effect of obstructed perspiration, will yield to its influence in a few hours; when used in asthma, hoarseness, wheezing, and shortness of breath, it gives immediate relief, producing tranquil rest and sleep. In whooping cough it is without rival. It operates by gentle expectoration, and may be given to infants with perfect safety.

The genuine New England Cough Syrup will be enclosed in a bill of directions, enclosed in an engraved wrapper, and is authorized by the proprietor in his own handwriting. The bottle will be sealed and stamped on the cork. New England Cough Syrup. A few of the many certificates in favor of this Syrup which are in possession of the proprietor, are added for the purpose of those who may be troubled with similar complaints.

Messrs Moffat, Plummer & Co. Gentlemen—After having tried, for the recommendation of my friends, almost every remedy for a cough, without the least relief, I had recourse to your New England Cough Syrup, and am enabled to say, with much thankfulness, that it has cured me of one of the most obstinate coughs I ever knew, and shall feel it to be a duty to recommend it to every one whom I find in need of so valuable a medicine. Yours respectfully, JOHN P. STEVENS. Boston, Nov. 20, 1837.

I have the satisfaction and pleasure of informing you that the bottle of New England Cough Syrup, which I purchased of you on the 23d of April, has entirely relieved me from a very severe cough, which had afflicted me for a short time past. After using a variety of medicine, and finding no permanent relief, I was induced by the advice of my friends, to try your Syrup. The result I have already stated; it exceeded beyond my expectation; and I cheerfully recommend it as a very valuable medicine for all those who may be afflicted with similar complaints. Yours respectfully, CHARLES RUGGLES. Boston, May 1, 1838.

In giving me great pleasure to be able to add my testimony in favor of your New England Cough Syrup, two bottles of which having entirely cured my cough, which was so severe that my physician advised me to spend the coming winter in a southern climate, but the fortunate use of the Syrup will preclude the necessity. Yours, JOSEPH BRADLEY. Boston, September 4, 1834.

The proprietor would add, that he is constantly receiving numerous testimonials of the value and efficacy of the remedy. For sale, by appointment of proprietors, by J. FORTELL, Rutland, Vt.

Also for sale at above.

THE ORIS TOOTH WASH.

The Oris Tooth Wash is purely a vegetable preparation possessing the properties of cleaning the teeth and mouth, restoring the gums to a healthy state, and preventing any morbid state of the mouth, whether arising from decayed teeth or a deranged state of the stomach.

"Sound teeth and white teeth are the most valuable portions of poor humanity; but how many neglect the attention necessary for their preservation, even when surrounded by all the means needed—among those we know of, none more present and effectual than the ORIS TOOTH WASH—it cleanses and whitens the teeth, strengthens the gums, purifies the mouth and sweetens the breath. We recommend it to all, young and old."—Boston Morning Post.

The concurrent testimony of the eminent Dentists and Physicians in all parts of the Union, in its favor, is conclusively shown by the numerous certificates that accompany each bottle. B. BRIDGEMAN.

TO THE LADIES.

DR. HULL'S UTERO ABDOMINAL SUPPORTER. This is an Instrument for the Radical Cure of Prolapsus, or falling of the Womb, by external application, representing the form of the abdominal cavity, is especially recommended to the afflicted, as it effects a perfect restoration to health, it never having failed of performing a cure, even under the most aggravated circumstances. It has received the decided approbation of Sir Astley Cooper, of London; Sir Benjamin C. Brodie, Sir James Clark, Physician to the Queen; Dr. Ashwell, Lecturer on Midwifery to Guy's Hospital; Dr. Ferguson, Lecturer to St. Bartholemew's; Dr. Griffith, Lecturer to Westminster Hospital; Dr. Ramsbottom, lecturer to London Hospital; Robert Ferguson lecturer to Westminster Lying-in Hospital; Dr. Sweetman lecturer to Middlesex Hospital, and Senior Accoucheur to Queen Charlotte's Lying-in Hospital; also by Henry Davis, Esq., Dr. Blundell, Lee, Messrs Surgeon Keates, &c.; by Dr. Moreau, President of the Académie Royal de Médecine, Paris and accoucheur at the Duchesse de Orleans; Professor Velpeau, Marjolin, Pons, Dubouché, Sanson, and others. And in New York, by Professor J. W. Francis, G.S. Bedford, M. D., Professor of Midwifery in the University at the city of New York; Professor Blandfield, professor Francis L. Johnston, President of the New York Medical Society; Laurens Hall, President of the society, State of New York; professor James M. Noyes of Albany, professor March, professor Cyrus Perkins, professor Doane—Drs. Todd, Boyd, Gilbert Smith, Haskins, Stearns, Ludlow, Kinson, Vaché, Power, Grayson, Virenschneider, and many other distinguished Physicians in the United States.
